WHAT YOU WILL DO

- Work directly with our Founders (Chris and Henrik) and our CTO (Martin) to build customer-oriented high performing products and services, bringing major impact on Finoa's business performance.
- Take leadership on our full product range on crypto-assets (including custody, staking and trading) plus future initiatives.
- Define & implement Finoa's B2B product strategy and roadmap: identify new product/feature opportunities, provide thought-leadership and direction with an end-to-end product ownership, from initial ideation to post-launch activities.
- You will be co-accountable for the setup and execution of UX/UI and customer research, product planning and product development.
- You will co-lead our PRB (Product Review Board), our cross-functional customer excellence governance body.
- Collaborate with our Engineers, Ops, Compliance, BD/Marketing and Sales teams to convince customer prospects, launch new products & features, test performance, and iterate quickly.
- You will take a continuous-incremental-improvement approach to product, processes, and practices.

YOUR PROFILE

- You hold a university degree in (ideally) Computer Science, Design, or Business Administration and have a strong technological understanding.
- You have 4-5 years of Product Management experience, creating strategic product roadmaps from conception to launch and working with cross-functional teams (Engineering, Operations, Sales, Marketing, Legal, Finance, and/or Customer Support).
- You have experience with FinTech and/or Digital Financial Serv. products and technologies, supporting the product vision definition, go-to-market strategy, and day-to-day technical & design direction.
- You have a track-record of successfully launching different products, preferably in the Finance, FinTech or Tech environment.
- You have past exposure to a high-growth and ideally, regulated marketplace environment
- Working proficiency and communication skills in verbal and written English – any other language is a plus!
- You have a hands-on mentality, know how occasionally work under pressure as well as the willingness to take an active role in our fast-growing company.

WHY US

- This is an excellent opportunity to work in a hands-on role with a VC-backed start-up. We are growing rapidly – and you will grow with us.
- You will work with the management team, setting up and defining the product position and thus, directly impact Finoa's growth.
- You will face a broad spectrum of challenging and exciting tasks with a high degree of autonomy – become an entrepreneur within our company.
- You will gain knowledge, exposure and experience working in one of the most exciting industries (FinTech and Blockchain) alongside a team of experts from tech, strategy-consulting and banking, shaking up the traditional financial industry.
- We have an incredible working culture: open communication, a low-/no-hierarchy environment where only the better argument counts.
- You will be working in our brand-new, hip, goodies-packed, centrally located office in Berlin-Mitte (right off Checkpoint Charlie).
- You'll benefit from flexible working hours and locations.
